

# CANANDAIGUA LAKE SHORE PARKS

## RECOMMENDATIONS

Use stickers to indicate which is the most important. Share comments on existing recommendations or tell us what you think we should add.

### CANANDAIGUA LAKE SHORE PARKS MISSION STATEMENT

Ontario County Beach Park and Deep Run Park serve as fully inclusive public access to Canandaigua Lake, one of the County's greatest resources. The parks provide a high-end, memorable experience of Canandaigua Lake for residents and visitors alike. These two parks work together to provide a diverse suite of experiences, in and on the water.

### GENERAL PROJECTS: PRIORITIZATION

Review and analysis of existing conditions, stakeholder involvement, and extensive public input collectively lead to the development of specific projects that would increase public access to Canandaigua Lake, improve park amenities and enhance the aesthetic character of Deep Run and Ontario County Beach Parks. Each project varies in priority based on the potential impact of the project and the feasibility of construction and funding. Each project was ranked according to the following prioritization options:

- Priority** – Highly beneficial projects that are immediately feasible, or will have the most impact and should therefore be addressed first.
- Recommended** – Beneficial projects that will have a significant impact and should be addressed next.
- Possible** – Projects that have a less critical time frame, or cannot begin until other projects are completed or issues are addressed.
